

The Sunplus™

Retractable Shelter with Rain Gutters*

Sunesta®
AWNINGS & OUTDOOR COMFORT

The Sunplus™ Retractable Shelter

This versatile retractable system offers basic sun protection up to complete rain and inclement weather protection. Systems can be standalone or mounted atop an existing structure such as a pergola, skylight or sunroom. With single unit projection widths up to 18 by 23 feet and the ability to join multiple units, the coverage is only limited to your space. The Sunplus offers a choice of hundreds of fabrics ranging from acrylic to decorative solar screen and waterproof fabrics. Like all Sunesta® retractable systems, Sunplus™ is custom made to fit your needs.

For Open Areas or Existing Structures

The Sunplus provides shade and adds rain protection by way of built in gutters and the ability to be applied to open areas.

For Open Areas or Existing Structures

The versatile Sunplus can project up to 23'. Multiple units can be joined together to create your ultimate outdoor oasis.

The Sunplus™ Retractable Shelter with Rain Gutters*

General Information

Custom sizes up to 18'W x 23'P

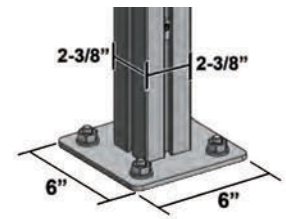

Front Bar Gutter

The rail gutter* is the Sunplus™ difference. It provides rain run-off, additional mounting strength and sun protection. The Sunplus may be supported by the uprights at the front end only.
